

REVERSIBLE MB PLOUGH

SALIENT FEATURES

- The plough is made from boron steel body
- Height adjustable drawbar
- Adjustment for working depth
- Reliable turnover mechanism
- Overload safety protection

REVERSIBLE MB PLOUGH

The MB Plough demonstrates the ideal working by performing the operations of aeration & weed burial into the soil simultaneously. The hydraulic strong turn over mechanism helps in efficient turning of the soil in minimum time. The Solis reversible MB plough can work in larger areas in the most effective way with its prominent features like high quality shears, larger interbody distance & height adjustable drawbar. It provides soil aeration, enhanced water retention and uniform root penetration which & hence greater crop yield.
